

STEP 2: TOOLS AND RESOURCES

STUDENT SURVEY SAMPLE TOOL 1

Use these Student Survey Sample Tools as a starting point. Use them to create a document that will help you gather data from as many students as you can in your school community. Then use the collected data to help determine what your school's students are interested in and what will motivate them to participate in intramural activities. These questions may also be used to create a student poll or for focus group interviews.

Select the Sample Tool that works best for your school community. Customize these tools to reflect your own school community and to make sure you gather the data you need to make informed decisions about your intramural program. These tools may also be used with younger students to gather answers as a whole class. Consider having your student leaders support teachers by facilitating the class discussions and/or by recording student answers.

Please answer the questions. Your answers will help us determine which intramural activities we organize this year!

Your grade:

1. Have you been involved in intramurals before?	Yes	No

- 2. What do you enjoy most about intramurals?
- 3. Are there any barriers, or things that have prevented you from participating in intramurals in the past?
- 4. Do you plan on participating in intramurals this year? Yes No
- 5. If you are not playing intramurals when they are scheduled, what will you be doing instead?
- 6. Which activities would you like to see organized this year? List up to four.
- 7. What would help motivate you to participate in intramurals this year?
- 8. Where do you get your information about what is happening with intramurals? For example, did you get hear about them from the school website, school announcements, in-class announcements, posters, or your friends?
