

## Student Resource: Role Play Card

### Student Resource: Role Play Card 1 – Scenario

---

Your younger sibling/family member is afraid of needles. They remember how much the last needle made their arm hurt for days! They are upset and refuse to allow the doctor to touch their arm. How could you comfort them? What could you say? What could you do?

---

### Student Resource: Role Play Card 2 – Scenario

---

Your teammate says they had the flu over the holiday. They do not think vaccination is necessary due to the acquisition of natural immunity.

---

## Student Resource: Role Play Card 3 – Scenario

---

The local public health unit is running a free vaccination clinic. Your friend isn't sure if they want to get the vaccination and wants to talk about it with you.
