

## Student Resource: Role Play Cards

### Student Resource: Role Play Card 1 – Scenario

---

Ali's parents divorced when they were nine. Since then, they have been spending every second weekend with their father. Their mother is immune compromised and wants them to get the flu shot with her next week. Ali's father does not believe in the flu shot and doesn't think Ali should get one.

---

### Student Resource: Role Play Card 2 – Scenario

---

Kai is always worried about getting sick. They wash their hands more than twenty times a day. When asked, Kai says they cannot catch a cold, and then explains they are anxious about all the germs that can easily spread to others. You noticed Kai's hands are burning and look red from all of the handwashing.
