

To Save Or Spend?

Decision-Making Graphic Organizer

Use this decision-making model to work through TWO ways you would save or spend the money you won in the poster design contest. Think about your needs versus your wants, the pros and cons of your decision and any future consequence your decision may have on your life.

- Will you save or spend the money?
- How much of the money will you save or spend?
- What will you save or spend the money on?
- What is a goal/plan you can make to help you with this decision?

- List any pros and cons (positives and negatives) that can come from your decision.

- What could be a result or consequence of your decision in the future?
- How could it affect you later on?

- What is your final decision?
- Are there any changes you would make to your decision-making process?
